

BLACK
FLAME
RETARDANT
LEATHER

#971

Made from flame-retardant leather and featuring a metatarsal guard, the #971 is designed specifically for smelter work.

- Black flame-retardant leather 'critical application' smelter boot—200mm height
- Non-intrusive metatarsal guard protection
- Ultra-tough, flame-retardant toe scuff cap protection
- Compression-resistant 8 point Ssoftherm® upper insulation against radiant heat
- Full Kevlar® stitched seams resist liquid metal splash and immersion
- Velcro secured flaps for individual fit adjustment—fast exit and entry
- Industry 'Dip' tested to 960°C in molten aluminium & 1520°C in molten steel
- Low density shock absorbing PU midsole with anti-bacterial agent
- Rubber outsole designed to specifically increase slip resistance in varied environments
 - excellent cut and slip resistance
 - highly resistant to hydrolysis and microbial attack
 - heat resistant to 300°C
 - oil, acid & organic fat resistant
- Removable Comfort Arch footbed with XRD® Extreme Impact Protection forepart insert provides superior comfort
- Anti-bacterial, washable and breathable footbed
- SPS Max—XRD® Technology in the heel strike zone for increased impact protection
- Ergonomically engineered toe spring for reduced wearer fatigue
- Steel shank—ensures correct step flex point, assists with torsional stability
- Full heel breast with arch support for ladder and gantry safety
- Electrical hazard resistant
- Broad fitting Type 1 steel toe cap tested to resist a 200 joule impact
Comprehensive internal testing and risk analysis should be completed prior to using this product, as site and operating conditions vary between locations
